

# Project Title

A STAT 139 Final Project

*Yuyue Wang, Xiangru Shu, Chengye Liu, Chia Chi (Michelle) Ho*

*Due December 13, 2017*

## Abstract

## Introduction

- Obesity is an exerbating problem in the US.
- Explore the association of 21 different factors with bmi, 13 of which are behavior-related factors such as the typical number of hours sleep per night

## Methods

- Data description
- data source is NHANES 2013-2014
- Variables of interest
- Only consider adults of age 20 or above
- Data preprocessing & assumptions
- Merge data by participant sequence number
- Exclude don't know/refused/missing values — discuss implications in limitations
- Perform EDA
- Fit regression models
- Check assumptions

## Results

## Exploratory Data Analysis

## Limitations

## Conclusions

## Appendix
